

The **PREDATOR** is available in different configurations to ensure that you get the set-up that meets your requirements and gives you the most productivity.

Tag-pump

This versatile configuration of the Predator comes with a removable tow bar and a torsion bar suspension for easy and smooth towing.

Your choice of 1200 Western mixer.

Mobile-Pump

This is the most complete piston pump available and it comes equipped with all the features that bring productivity to the highest level.

Material screen available on mixer or hopper.

Optional water delivery system speeds mixing time by delivering 10 gallons of water in about 6 seconds across the length of the mixer rail.

Heavy duty wishbone trailer with 16" wheel makes it the strongest ride available.

5000 Lb jack and stabilizers for a safe and faster set-up.

Skid-Pump

This set-up is easily mounted on truck beds, trailers, or even roll-on carts in order to reach the toughest places while maintaining the high pumping output

Custom mounting designs are available.
